Differentiators

Former USACE District Leadership - Led complex federal programs from inside the customer organization.

Senior Practitioners - Every engagement is led and delivered by Attain's founders.

Licensed Professional Engineer - Engineering judgment applied to project delivery, risk, and execution.

Certified PMPs – Project management discipline applied to complex federal delivery.

Current USACE Experience - Current and multi-year work across four USACE districts.

Federal Past Performance

USACE, Caribbean and Latin America District (SAA) – Strategic Planning
Assessing a $10B portfolio across a 33-country AOR, including 150+ active actions, to identify execution, workforce, acquisition, geopolitical, and security risks and establish leadership controls and mitigation priorities.

USACE, New England District (NAE) – Leadership Development
Multi-year leadership development program for 75+ section, branch, and division chiefs focused on supervisor effectiveness, team performance, and organizational execution.

USACE, Nashville District (LRN) – Leadership Development
Designed and delivered a one-day applied leadership seminar for first-line supervisors, using district-specific scenarios, workbook tools, and survey data to improve supervisory execution.
